

RAIN-X SCREEN WASH -15°C

DESCRIPTION

RAIN-X SCREEN WASH -15°C is formulated with exclusive active components and alcohol. It is exempt from methanol.

It provides a new hydrophobic technology which is able to generate small water drops that rapidly slide down the windshield optimizing the visibility in adverse weather condition.

Eliminates all kind of windscreen soils, such as bug, dirt, mud, etc. and provides low temperature protection up to -15°C.

FEATURES

- It improves visibility and cleanness without any presence of residues. Removes all kind of windscreen soils.
- It protects up to -15°C for winter season.
- Hydrophobic technology provides unique rain repellency, improving visibility in hard driving conditions.
- Efficient control of foam formation for the avoidance of performance loss.
- It provides a pleasant smell.
- Free of methanol.
- Specific control against bacteria generation for protecting the windscreen washer circuit against any deposit formation, hence prolonging the product life.
- "Ready to use" product.

DIRECTIONS FOR USE

- Ready to use product, just add it into the deposit. No need for dilution.
- Preferably, empty the deposit before the addition of the product for optimal results. Mixing it with another product might affect the overall performance of the product.

TECHNICAL CHARACTERISTICS

Property	Unit	Method	Value
Colour	-	Visual	Blue
Appearance	-	Visual	Clear liquid
Density at 20°C	g/ml	ASTM D4052	0.97 - 0.98
pH		ASTM E70	6.0 - 8.5
Freezing point	°C	ASTM D1177	-15 ±1
